

End of Year Bulletin 2021

Dear Rotarians,

What a year we have had! What started as a temporary online meeting medium has now made us all in-house zoom experts. It was never more important to catch-up for birthdays, anniversaries and celebrate the freedom of not being confined to a 5km radius. Although, I still end up hearing innocent mention of the 'lockdown' phrases every now and then, I am going to hold back my complaints from this year, partly because I know Santa is making his list and there is a certain level of peace in letting go (or so I have heard). Christmas is here and so is a new beginning for us all! I hope you are all looking forward to catching up with your loved ones, try yummy food and enjoy the beautiful chaos of where is everyone?!

It has been a big year for our club and I want to thank you all for your continued commitment to the club. Living in Victoria, we have seen it all but our commitment to get creative with our fundraisers and community projects speaks volumes of our connection to Rotary International and its values which connects us all. Rotary theme for December is Disease Prevention and Treatment and you will see incredible work being done by Rotary Port Philip in Timor Leste with the Covid vaccination program. Some very exciting events coming up in 2022 and I have shared a few in the events section of this bulletin. I genuinely thought PETS in Person was an event where people could bring their pets and we got to meet them (and the humans), but looks like it stands for <u>Presidents-elect Training Seminar (PETS)</u>. I wonder if we can do the version I imagined. Either way, pretty exciting! The President's column will always be my favourite piece of any bulletin, Jamie, thank you for cheering us up always! Team, be sure to send out good vibes to Tommy for his speedy recovery and contribute to his Points 4 fundraiser. You will find details in the bulletin.

I hope you enjoy the Italian Christmas at Palazzo Restaurant organised by the Club packed with terrific entertainment and a special guest speaker. Please reach out to Rodney if you haven't already had a chance.

I hope you like this final bulletin of 2021. I look forward to writing to you in the new year.

I wish you all a Happy Christmas and a Merry 2022!

Pragya

The President's column

It seems scarcely credible that almost half the Rotary year is gone and for much of that time we've been cloistered in our Zoom rooms for meetings or have chosen to remain a face-to-face member. I must say, some of our Zoomier members appear to live in exotic locations with great sunsets. Whichever you are, welcome to this column.

It's been a great relief that we didn't lose any members due to lockdowns, either from COVID itself or disconnectedness. In fact, in our few F2F meetings there has been the heart-warming and delightfu sound of animated conversations around the tables. As an analogy with the economy, the enforced pent-up savings are being joyously spent when given a chance. But fellowship is only one aspect of Rotary; we have a deeper purpose to volunteer our brain, brawn, or funds in the service of humanity and we haven't achieved much of that to date.

As with our conversation and personal funds, our enthusiasm for service will find an outlet in the second half of the year. To some extent we've started by seeking candidates for Youth and Community programs and in lining up Environmental renovations at the Doug Mills Reserve. Our fund-raising project of a Golf Day will let loose the world early in 2022. Even writing that number has a feeling of the far-off future about it, but in fact it's only four weeks away.

Some time ago, Jama Farah and I were interviewed on Zoom by DG Dale Hoy. The result was shown last Saturday, 2711, on the Zoom meeting 'Monning Tea with the DG' and it was warmly received. Later we, plus Graeme Thompson, had another Zoom meeting requested by RC Melbourne for them to learn how we set up a crowd-funding method of paying for transporting containers to Africa. Old dogs can learn new tricks, although that doesn't necessarily extend to working with mygovID apps as I've found recently. Nevertheless, the old lags of Footscray are dragging themselves up by their modems.

Although I stopped having a club Sergeant from the outset, probably because no one would accept the poisoned chalice, another role has become a victim of our nomadic existence and the set-up of The Plough Hotel. We haven't had "Chairperson of the Day" for months. I'm hoping to perform CPR to bring life back to this useful role in the new year. It's not like being chairman of Whitehaven coal at its AGM; chair of the day allows a brief opportunity for public speaking and fielding questions for a speaker.

Sports Report. For those with strong constitutions, Partick Thistle is fourth on the ladder in its division; plenty of time for a repeat of Icarus's flight.

Have a safe and Happy Christmas and holiday season and come back refreshed for a lively time in 2022.

Jamie

Rotary Club Meetings - Guest Speakers

By the fantastic Graeme Thompson

In November, Rotary Club of Footscray hosted two zoom meeting with special guests, Lindsey Leigh Hobson and Catherine Cumming.

With qualifications in Life Coaching and NLP, Lindsey Leigh Hobson has coached Millennials and Gen-Zs to create a life filled with purpose and passion that they love. She also brings her experience as a Marketing Manager to this session, including more recently for a Melbourne Recruitment Agency sourcing premium talent for renowned Australia companies. Now, an Emerging Leader Expert as well as an Emerging Leader herself, Lindsey showed the Club members on how to not only gain more younger members, but how to harness their potential and engage them long-term for the good of the club as well.

Lindsey Leigh's personal battle with anxiety began when she was 13 and lasted throughout her secondary education, always questioning what it really means to be alive at a young age. Believing that everyone deserves to achieve all their dreams - anxiety or not, she began journey of self-discovery. Having conquered her anxiety she began a mission to empower others to do the same recognising that 51% of Millennials and Gen-Z's suffer anxiety particularly regarding their future work.

Lindsey encouraged the club to tap into the potential of those under 40 years of age who naturally want to give back to the community and make a difference and pointed out that many Millennials and Gen Z are keen entrepreneurs. She suggested that we might contact Melbourne Entrepreneur Group as a source of potential members and also use social media to promote projects that would appeal to this demographic.

Catherine Cumming, Member of Legislative Council for MLC Western Metropolitan Region spoke to the members earlier in the month. After 20 years on Maribyrnong City Council with two terms as Mayor Catherine Cumming was elected to the Upper House of the Victorian Parliament in 2018.Her background includes having run small business, a cafe, practicing Chinese Medicine and being a member of the Army Reserve. She is also a past member of the Rotary Club of Footscray.

Before being elected to the Legislative Council she had run unsuccessfully for a lower house seat on a number of occasions. Her passion for politics was initiated by a dispute with authorities over the family home and later becoming aware of the lack of infrastructure and the prevalence of mental health issues in the West. Since becoming a member, she has been concerned about the public perception of politicians and the desire of people to be involved in the decision-making process. Being an independent member has provided her the advantage of speaking freely rather than being bound by party policy. She is also concerned with the political process and the method that bills are handled between the Legislative Assembly and Council.

As one of the 5 members for the Western Metropolitan Region she has responsibilities to the local community, communicating with and questioning the Government, and sitting on committees. She has advocated for an enquiry into air pollution.

The Club members are thankful to both Linsey and Catherine for their precious time and the fantastic work they are doing for the community.

Tommy Quick's epic 9000km ride comes to sudden halt - hit by a car!

By Rodney Johnstone

Hello all, an important update for Tommy Quick and his epic ride to the 4 most extreme points on mainland Australia (West (done); South, East and North). He has sadly been hit by a car and is in hospital in Adelaide with a broken pelvis and right femur. Incredibly lucky to still be alive. Tommy has another fight on his hands to get through surgery today and then a long road to recovery. If you want to support Tommy and the team through this terrible event please donate to their 4-points Australia account – details below. They could really use some loving at the moment and a show of support no matter how big or small. Check out the story link below and then consider what you can do to support this incredible bloke – and his folks – to bounce back again. Tommy was over 3,500kms into his 9,000km ride on his recumbent tricycle to promote stroke awareness and social inclusion.

RI President Shekhar Mehta urges countries at COP26 to protect mangroves

By Ryan Hyland

Rotary International President Shekhar Mehta joined the Rotary delegation to the 26th United Nations climate conference in Glasgow, Scotland, on 10 November to explore ways Rotary can work on environmental challenges, including by restoring mangroves, a crucial ecosystem that can mitigate the effects of climate change in coastal areas.

The climate summit, also known as COP26 (short for Conference of the Parties), brought together nearly 100 heads of state and governments over a two-week period to set new targets for fossil fuel emissions. This was Rotary's first time at the annual conference.

Mehta co-led a roundtable discussion with Patricia Scotland, secretary-general of the Commonwealth, that focused on the critical role mangroves play in mitigating and adapting to climate change. Mangroves sequester large amounts of carbon and also protect against

storm surges and coastal erosion, filter pollutants, and provide habitat for aquatic life, among other benefits.

Rotary Acknowledges Outstanding Teachers

The pandemic forced teachers to adopt new modes of teaching. It was uber timely that Rotary Altona City established the Hobsons Bay Rotary Teacher Awards program in 2018.

Focusing on early career stage teachers, experienced teachers, and teams, the awards recognise and encourage outstanding performance in local schools.

The pandemic sent everyone into a spin where suddenly, we were all forced to adapt to a socially isolated world. At lightning speed, teachers adopted new modes of teaching that embraced the family unit. It was uber timely that Rotary Altona City established the Hobsons Bay Rotary Teacher Awards program in 2018. Focusing on early career stage teachers, experienced teachers, and teams, the awards recognise and encourage outstanding performance in local schools.

Award founder, Past District Governor and Assistant Principal Baden Powell College, Julie Mason says that it's never been more important to support and honour teachers.

"The requirements we've put on teachers in the COVID environment have been extraordinary so it's particularly relevant to acknowledge their work."

The Zoom award ceremony took place, 18 October, 2021. It was a powerful event telling stories of passion, dedication and relationship building that went beyond the student teacher relationship and into the families.

Rotary supports COVID-19 Vaccinations in Timor Leste

Rotary Port Phillip in conjunction with representatives of Spend it Well, a local Timorese Government organisation, SABEH, and the Australian Government representative in Timor Leste coordinating the Australian Government response to COVID19, initiated a project to administer one dose of an anti-COVID vaccine to approximately 5,000 to 6,000 people over a two-week period.

The team of 30 volunteers left Dili on Monday, 4th October; 22 of whom arrived at the Balibo

The team of 30 volunteers left Dill on Monday, 4th October; 22 of whom arrived at the Balib Fort Hotel (a Rotary project) after midnight, having conducted medical check-ups at Batugarde during the day. The remainder of the volunteers travelled directly to several remote villages. The hotel kindly provided its conference centre as a vacation hub. Along with vaccinations against COVID19, SABEH (Saúde Ba Ema Hotu) was able to conduct other medical treatments.

According to Dr Andre, Head of SABEH, the medical treatment SABEH conducted alongside the vaccinations was also very important. He stated that many people had preferred to live in pain rather than go to a health centre for treatment. The visit also highlighted the need for a school health program due to many children suffering from malnutrition, tooth decay and vision problems. As a result, many of those with dental problems were being connected to a dental clinic at the Balibo Community Learning Centre.The accompanying photos show how Rotary members, partners, supporters and donors are "Making a Difference" and saving lives.

Rotary & Interplast – A Good News Story

Fifteen-year-old Rashmi dreams of being a doctor. When Interplast last met the Sri Lankan schoolgirl, she was busy studying for her Ordinary-Level examinations, undertaken in the final two years of high school.

Aiming to enrol in a biology stream for her higher studies, Rashmi's goal was to become a doctor, and help others, as she has been helped over so many years.

Born with a congenital facial dysmorphic condition, Rashmi is certainly no stranger to the medical profession. Since her early childhood, the brave schoolgirl has undergone multiple reconstructive surgeries performed by local surgeons in Sri Lanka.

Rashmi's mother Ruhi was told by another patient of the work of the Interplast team at the National Hospital in the country's capital, Colombo.

Dropping her two siblings off at school early, Rashmi travelled with her mother Ruhi for the two-hour round trip from Kalutara in Sri Lanka's Western Province, where the family lives, to reach Colombo's National Hospital and meet the Interplast team.

For more information please contact your Interplast District Chair, or Interplast Rotary Coordinator, Janette Etherington, at $\underline{janette_etherington@interplast.org_au}$
